Totai's Identity

~For Quality And Safety~

1 FSSC 22000 Certification

FSSC 22000 has more stringent conditions with additional requirements than ISO 22000. Both Japan and China Totai gained FSSC 22000 through rigorous inspections. China Totai was first among Totai Group gain this certification.

FSSC 22000
(Food Safety System Certification)

A strict set of controls for systems to ensure food processing safety and security

ISO 22000

HACCP

ISO

+

PAS 220

Additional requirements

FSSC22000

2 GMI Certification (Graphic Measures International)

GMI is a globally recognized packaging quality certification. It measures the performance of packaging suppliers on the following components.

1. Process control and documentation
2. Equipment maintenance
3. Training procedures
4. Operator capability
5. Equipment performance

Totai's packaging is GMI certified for Walgreens, a leading drug store chain in the U.S. This certification recognizes Totai's high quality printing

3 VOC combustion equipment

This equipment burns chemicals like toluene and helps to minimize emission of solvents into the environment. In recent years, as environmental regulations in China are tightening, China Totai has promptly introduced this system to contribute to the environmental health.
